

FENCES AROUND CASTLE – Baron de Giey – BELGIUM

In 1985 the fences of the castle of Baron de Giey were protected with **ZINGA**.

In 1988, another **ZINGA** application was performed on the bridge in the gardens of the castle of Baron de Giey. **ZINGA** was used for the renovation of a very old piece of work with historical value. The bridge is in cast iron.

System:
ZINGA 2 x 60 µm DFT
