What is NSF/ANSI/CAN 61

NSF is an international, independent, non-profit, non-governmental organization that is dedicated to being the leading global provider of public health and safety-based risk management solutions.

The certification of NSF/ANSI/CAN 61 cover specific **materials** or products that **come in contact with drinking water**, drinking water treatment chemical, or both.

NSF/ANSI/CAN 61 testing covers all products with drinking water contact from source to tap and **determines what contaminants may migrate or leach from your product into drinking water**. It also confirms if they are below the maximum levels allowed to be considered safe.

Benefits of certification

- Meets the regulatory requirements for the U.S and Canada
- Fulfill the testing requirements for many countries
- International recognized by market leaders
- Certification allows the company to:
 - ✓ List the product in the online directory
 - ✓ Use the NSF certification mark on your product and promotional materials

Certification of ZINGA® & ZINGALU

NSF International

789 N. Dixboro Road, Ann Arbor, MI 48105 USA

RECOGNIZES
