

## REBARS – PARS OIL & GAS – IRAN

This is a testimonial letter from the company **Pars Oil & Gas co.**, issued in 2006. In which they confirm that **ZINGA** will be used for the anti-corrosion protection of rebars on the wharf instead of epoxy.

**System:**  
**ZINGA 1 x 40 µm DFT**

Translation by PARS OIL & GAS Co  
PARTICIPATION of PERLITE/TEHRAN BERKLEY  
Considerable for Mr. MOADDELI

Subject: galvanization coating of wharf's rebars  
Contract no: 029-76-520-MTN

Hereby, according to letter number NK/501/441 on 07/08/2000, informs that uses of the "ZINGA" galvanized coating is confirmed from technical characteristics and the quality. So, by considering that this contract is not interrupted and consuming of this coating has no financial burden, we can use this product instead of epoxy.
